OUR RANGE OF FINANCE SERVICES INCLUDES:

- Residential home loans
- Investment finance
- Commercial/business finance
- Self Managed Superannuation Fund loans
- Reviewing and analysing your current banking arrangements

WHY WOULD YOU CONSIDER REFINANCING?

There are several reasons to revisit your current financial arrangements:

- There may be lower interest rates available for your circumstances than what you are currently paying.
- There may be a better way to structure your loan to suit your cash flow.
- You may want the flexibility to make extra payments.
- You may want the option to redraw funds when you need.
- You may like to split between fixed and variable interest rates.

Our Finance team also has the inside knowledge to ensure significant savings and the best possible outcome for our business clients.

For example, we are able to negotiate:

- Loan terms and conditions
- A combination of products and services suitable for your business.
- Banks to meet some of the refinance costs for business clients.
- Reduced establishment fees.

HERE'S WHAT OUR CLIENTS SAY ABOUT OUR SERVICES:

"We could not be happier with your services. You responded promptly to any and all enquiries, pressed buttons for action when needed, are very easy to talk to and personable, and conduct yourself as a true professional.

We would certainly not hesitate to use your services in the future and will recommend you highly to friends."
