## CUSTOMISED SOLUTIONS, PERSONAL SUPPORT

The Allan Hall Work Health and Safety team can help you with all your workplace health and safety needs. We are 100% committed to improving workplace safety and protecting your workforce and your business.

We understand the difficulty and practicality of applying Workplace Health and Safety legislation and we provide you with a high level of personal support to ensure our safety solutions are implemented effectively.

We work closely with you to deliver services that are simple and straightforward in their application, realistic for your situation and customised to your unique business and its procedures.

We understand that the safety requirements of one business can be very different from another, and offer a range of services from which to choose, according to your workplace needs.

All our services provide a best practice approach to compliance with the Work Health and Safety Act 2011 and Work Health and Safety Regulation 2011. We can help you to reduce the risk of injury, illness, death or criminal liability, satisfy your legal and moral obligations, reduce your workers compensation claims, and pre-qualify for Work Health and Safety compliant tenders.

---

## OUR RANGE OF WORK HEALTH AND SAFETY SERVICES:

**Safety Management Systems:** Our customized, easy-to-use Safety Management System is affordably priced and can be packaged to suit the size and scope of your organisation. It includes policies, simple step-by-step instructions and easy to use templates and tools to assist you to identify and control hazards within the workplace. It is fully compliant with Australian Standard AS/NZS4801 and satisfies Federal and State Government requirements. We work closely with you to ensure it is successfully implemented and provide you with ongoing support.

**System Auditing:** We provide auditing of your safety systems, either with regular scheduling, or on a one off basis. It enables you to understand your strengths and weaknesses and develop continual improvement in your Work Health and Safety Management. Our safety auditors are fully certified, ensuring your safety system audit is performed to best practice standards.

**Workplace/Site Safety Plans:** We work with you to determine your site specific details, emergency contacts, emergency evacuation procedures, assembly points and first aid and ensure these are clearly communicated to all staff, contractors, suppliers and visitors, quickly, effectively and economically.

## HERE'S WHAT OUR CLIENTS SAY ABOUT OUR WORK HEALTH AND SAFETY SERVICES:

*"Knowing the challenges in implementing workplace safety with workers across multiple sites, I was pleased with the Allan Hall approach. Implementing and maintaining safety on all our projects is now straightforward and we intend to continue using Graeme to audit and update our Safety Management System as required."*

Stephen Upton, MD, PHD  
Building

*"We were recommended to Allan Hall Safety by Multiplex, one of the largest construction companies in the country. Graeme and Gordon were very helpful and professional and in very quick time we were able to implement a Safety Management System, tailored to our business, to meet our Work Health and Safety obligations and requirements of the principal contractor. We were really pleased with the results and the friendly and efficient service."*

Fiona Maher, Owner,  
Aardvark Steel Constructions

**Risk Assessments:** The law requires all employers to identify, assess, eliminate or effectively control all potential hazards. We provide a comprehensive workplace risk assessment and report as a first step to identifying and assessing the hazards that exist within your workplace.

**Safe Work Method Statements:** Any work practice that can cause injury or illness must have a safe work method statement to reduce the likelihood of accident. We assist you to develop Safe Work Method Statements that clearly convey the best practical method of performing each task, as well as risk identification, assessment, elimination or control. Our statements include training required, plant or equipment involved, codes of practice or relevant standards and more.

**Consultancy Services:** If it is Work Health and Safety advice you need, our experienced consultants can cover everything from site-specific queries to hazardous chemicals advice, workplace assessment and reporting, safe work practices, legal compliance support and more.

**Training:** As well as on-site training, we host a range of in-house training sessions, delivered by qualified and professional trainers, accredited by relevant Registered Training Organisations. These are competitively priced and designed to give maximum benefit to our clients.

## THE TEAM

Graeme Powell and Gordon Parish lead our Work Health and Safety team and bring over 25 years practical experience in Work Health and Safety solutions. They have the knowledge and expertise to answer all your Work Health and Safety compliance needs.

And, as a division of Allan Hall Business Advisors, our team will provide you with the same respected level of professionalism, personalised service and integrity that has kept the firm in business for over 55 years.

Contact the Allan Hall Work Health & Safety team to find out how we can help your business.
